Company Profile

Guiding every test, every report — with precision, integrity and internationally accepted results.

NABL ACCREDITED

ISO/IEC 17025:2017

ISO 9001:2015

WWW.WEXLLAB.COM

NCR · INDIA

A trusted name in materials testing across the NCR region.

M/s WeXL Laboratory Pvt. Ltd. is one of the most trusted and competitive names in the NCR region for metal and automobile testing, certified to ISO 9001:2015. We operate a state-of-the-art materials-testing facility equipped with high-precision, latest-technology instruments that ensure accurate, reliable and internationally accepted test results.

Founded by **Dr. Amit Bishnoi**, who brings more than 20 years of rich experience, WeXL Laboratory is highly equipped and committed to excellence in materials testing and analytical services.

We specialise in comprehensive testing and analysis across diverse sectors — metals, plastics, rubber, paints & coatings, corrosion studies, ELV compliance, welded & brazing materials, plating solutions, water quality, failure analysis, non-destructive testing, and performance & durability evaluation.

With a commitment to quality, precision and timely delivery, WeXL Laboratory continues to be the preferred partner for industries seeking dependable testing solutions that meet national and international standards.

20+ YEARS OF EXPERTISE	**22+** MAJOR INSTRUMENTS
40+ INDUSTRY PARTNERS	**100%** TRACEABLE RESULTS

Our mission

To be the benchmark laboratory for dependable, accredited testing — enabling industries to build safer, better-engineered products.

Objectives that guide every test we conduct and every report we deliver.

At M/s WeXL Laboratory Pvt. Ltd., our core objectives shape the way we work every day.

01

Accredited accuracy

Deliver accurate, reliable and internationally accepted results through strict adherence to NABL ISO/IEC 17025:2017 and ISO 9001:2015.

02

Continual advancement

Upgrade our technology, instruments and methods continuously to stay at the forefront of materials testing and analytical excellence.

03

Fast & impartial service

Provide precise, unbiased testing that helps clients meet regulatory requirements, enhance product quality and ensure safety.

04

Expert failure analysis

Offer technical support and root-cause analysis that enables industries to resolve challenges, improve designs and prevent future failures.

05

Lasting partnerships

Build long-term relationships founded on trust, transparency and the consistent delivery of high-quality services.

06

Standards & compliance

Advance industry standards and environmental compliance through specialised testing in ELV, corrosion, water quality and construction materials.

Above all | To build and support a skilled team that always works honestly and in the best scientific way.

Comprehensive third-party testing & calibration services.

A single accredited partner across the full spectrum of materials — from raw metal to finished automotive components.

MT

Metals

Chemical composition, mechanical & metallurgical analysis.

PL

Plastics & Polymers

Identification, MFI and performance characterisation.

RB

Rubber

Compound analysis and physical property testing.

PC

Paints & Coatings

Adhesion, gloss, abrasion and thickness evaluation.

CR

Corrosion Studies

Salt spray, CASS and humidity chamber exposure.

EL

ELV Compliance

End-of-Life Vehicle regulated-substance testing.

WB

Welded & Brazing

Joint integrity and weld quality assessment.

PS

Plating Solutions

Bath analysis and deposit evaluation.

WQ

Water Quality

Physical, chemical and trace-metal analysis.

FA

Failure Analysis

Root-cause investigation of metals & plastics.

ND

Non-Destructive Testing

NDT inspection for defect detection.

PD

Performance & Durability

Life-cycle and endurance evaluation.

Traceable calibration, backed by NABL accreditation.

In partnership with **M/s AVI Calibration**, WeXL provides comprehensive calibration for all types of measuring instruments and testing equipment — available both in our laboratory and on-site at client locations.

Our calibration facilities, established as **M/s AVI Calibration Services LLP**, have built a strong reputation over the past decade for accuracy, reliability and customer satisfaction. As an NABL-accredited laboratory (ISO/IEC 17025), we ensure traceable calibrations with certificates that meet national and international standards — helping industries maintain compliance, reduce downtime and ensure measurement precision.

CALIBRATION FIELDS

- Mass
- Force
- Pressure & Vacuum
- Volume
- Thermal
- Fluid Flow

NABL — ISO/IEC 17025:2017

Accredited by the National Accreditation Board for Testing and Calibration Laboratories, ensuring internationally recognised competence and consistent performance.

ISO 9001:2015

Certified quality management system, demonstrating our commitment to continual improvement across all processes.

✓ Reliable, accurate and traceable results to the highest national and international standards.

Inside the WeXL laboratory.

A controlled environment engineered for precision — from spectroscopy and metallography to mechanical and corrosion testing.

Spectroscopy(OES)- Chemical Lab

UTM - Mechanical Testing Lab

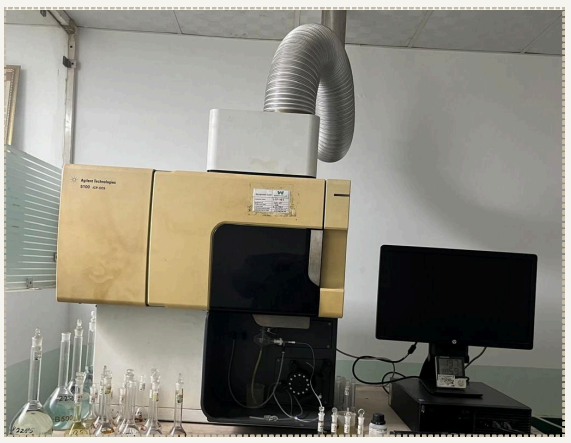

MFI- Polymer testing Lab

Hardness Testing - Mechanical Testing Lab

FTIR

ICP-OES

List of major equipment.

A fully equipped facility spanning spectroscopy, mechanical testing, hardness, corrosion and polymer analysis.

- **Optical Emission Spectrophotometer**
  Fe, Cu & Al base
- **Atomic Absorption Spectrophotometer**
  All metal elements to mg/l (ppm)
- **ICP / OES**
  Water and metal testing
- **Electrolytic Analyzer**
  Cu-base material
- **pH, TDS & Conductivity Meter**
  Aqueous analysis
- **FTIR Spectrometer**
  Rubber & plastic polymer ID
- **Melt Flow Index (MFI)**
  Melt flow rate of plastics
- **Tensile Machine**
  500 N to 2000 N capacity
- **UV Photometer**
  Spectrophotometric analysis
- **Microscope**
  100–1000× mag. with image analyzer
- **Stereo Microscope**
  0.75–45× mag. with image analyzer
- **Universal Testing Machine**
  1000 kN capacity
- **Micro Vickers Hardness Tester**
  0.010 kg to 1.0 kg load
- **Rockwell Hardness Tester**
  With superficial hardness
- **Brinell Hardness Tester**
  750 to 3000 kg load
- **Impact Testing Machine**
  Izod & Charpy up to -50 °C
- **Salt Spray Test Chamber**
  450 L capacity
- **CASS Test Chamber**
  250 L capacity
- **Humidity Chamber**
  75 L capacity
- **Gloss Meter**
  At 20°, 60° and 85°
- **Scratch Hardness Tester**
  Coating hardness
- **Abrasion Testing Machine**
  For paint testing

Our business partners in metal testing.

Leading automotive, industrial and engineering companies rely on WeXL for accredited, dependable results.

Allied Fittings (USA)

Dantal Hydraulics

Imperial Auto Limited

JTEKT India

Indo Autotech Ltd.

Bajaj Auto Limited

Advik India Pvt Ltd.

Bellsonica Auto Components

Best Koki Automotive Pvt. Ltd.

Botil Oil Tools India Pvt Ltd.

Casewell Drilling Services

Completion Oil Tools Pvt Ltd.

Daido India Pvt Ltd.

Everest Industries Ltd. (Haridwar)

Forza Medi India Ltd.

GAIL India Limited (Pata)

Horizon Aerospace Pvt Ltd.

RITES Limited (Faridabad)

Imasen Manufacturing India

Maruichi Kuma Steel Tubes

NICE Steel Industries

Nirankari Electrochem Pvt. Ltd.

Neel Metal Group

NHK Springs India Ltd.

TRUSTED BY

08

The complete partner roster.

A growing network of automotive, industrial and engineering leaders who rely on WeXL for accredited results.
